ABOUT US

Who we are

Allawi Contracting was established in 1999, Today we are engaged in the development, manufacturing and marketing of a wide range of industrial hoses and ducting products and HVAC services.

The company provides a competent and efficient service to a broad spectrum of customers who are within the various sectors of the processing and automotive industries.

Due to the ongoing integration of international markets, fast design techniques and high-speed communications, Allawi Contracting has become an interactive supplier who is well aware of its customer's needs of today.

The company therefore has a more than adequate perception of client's needs as its primary goal, reliable quality and a fast personal service.
